- x Increasing instructional time is always impressive.
 - x The board continues to be excited about all of the positive changes involved with professional development.
3. Please note areas for additional improvement
- x It would be interesting to know what staff members think should be improved with the learning days and how such improvements would change the way that the learning days might be structured.
4. Comments on the report itself.
- x Use of bolding new areas and use of tables/visual charts/graphics very helpful.
 - x The report highlighted efforts made by Shuksan to engage families. Question for future consideration: how intentional and successful are other secondary schools in terms of engaging and involving families, especially those who may be harder to connect with?
 - x If the number of "Purple Fridays" or teacher workdays decreases in future school years, thus reducing the length of the school calendar, a question for future consideration: would the community prefer to see school start after Labor Day even if that means attending school until mid-June, rather than starting before Labor Day and getting out in early June?
5. Possible changes to the policy.
- x n/a
